

Hillhead Family Practice Privacy Notice – Payments

Plain English explanation

Contract holding GPs in the UK receive payments from their respective governments on a tiered basis. Most of the income is derived from baseline capitation payments made according to the number of patients registered with the practice on quarterly payment days. These amount paid per patient per quarter varies according to the age, sex and other demographic details for each patient. There are also graduated payments made according to the practice's achievement of certain agreed national quality targets known as the Quality and Outcomes Framework (QOF), for instance the proportion of diabetic patients who have had an annual review. Practices can also receive payments for participating in agreed national or local enhanced services. Practices can also receive payments for certain national initiatives such as immunisation programs and practices may also receive incomes relating to a variety of non patient related elements such as premises. Finally there are short term initiatives and projects that practices can take part in. Practices or GPs may also receive income for participating in the education of medical students, junior doctors and GPs themselves as well as research².

In order to make patient based payments basic and relevant necessary data about you needs to be sent to the various payment services. The release of this data is required by Northern Irish laws¹

We are required by Articles in the General Data Protection Regulations to provide you with the information in the following 9 subsections.
